

ABOUT ME

I am an enthusiastic Digital Artist based in Birmingham seeking employment and experience in Web Design. I enjoy the challenge of coming up with creative and efficient solutions to briefs. I am always looking to expand my skills and knowledge by continuously learning my craft!

EDUCATION

University of Cumbria 2012-2015

2:1 in BA (Hons) Digital Arts in 3D Modelling

North Warwickshire and Hinckley College 2011-2012

Art and Design Foundation Diploma

Princethorpe College, Warwickshire 2006 -2011

10 GCSEs

4 A Levels

EXPERIENCE

NHS CUMBRIA PARTNERSHIP

August 2015 – February 2016

In this role I was responsible for building the NHS's intranet. This involved coordinating information between different departments and managers to successfully build an interface – the goal being that it improved the efficiency and user experience over their pre-existing intranet. I attended and arranged various meetings to ascertain what each department required, and collaborated with these different departments to come up with a design and then build it. I completed various excel documents to help out during quieter periods, as well as other general office admin and support for the managers.

SKILLS

I have experience of working with Dreamweaver, Photoshop and Illustrator as well as Share-point. I have experience of utilising Java and J-Query. I also have experience of creating responsive websites. I can work with existing styles, ensuring assets aesthetically look like they belong with any pre-existing content or a company's style. I'm a flexible worker, having experience working as part of a team to produce a Intranet, as well as taking more independent roles working on projects.
